## OVERVIEW

**Web Design Skills** - Web designer with graphic design skills. I create sites that present a client's desired look, functionality and user experience. I have proficiency in Adobe Creative Suite apps, Wordpress, HTML and CSS. I keep up-to-date on the latest web trends, techniques, and technologies.

**Print Design Skills** - Strong visual focus and creative flair with the ability to come up with creative solutions. Custom designs using Adobe Creative Suite apps with the ability to work well under pressure and work to tight deadlines. Specializing in designs for a specific audience or message creating cohesive marketing material across all platforms. I have a strong sense of typography and color use.

**Project Management** - I bring years of project management experience working in various industries from Fortune 500 companies to startups. I have worked as an individual contributor or contractor and as a permanent employee. I have managed projects of every size, maintaining a cohesive workflow that anyone can jump into. I have managed client relationships with professionalism keeping in mind that my actions represent the whole company or institution.

## EXPERIENCE

### **Citrine Graphics - Print & Web Designer** **2005 - Present**

I am currently a graphic designer for print and web as a freelancer. I've specialized in user interface and color theory design using the latest methods and standards. [VIEW PORTFOLIO](#)

### **Emagineering - Web Designer Project Manager** **2003 - 2005**

I created custom website designs that wrapped around a CMS. I managed all client relationships and communicated design requirements to the engineering team. I gathered all copy and content for each site. I formulated project scope and design objectives. The product was an all-in-one online marketing solution and reservation system for the hotel industry. ### **Apple Computer, Inc. - Marketing Assistant** **1991 - 1996**

I formulated training material for software engineers in the hardware development in R&D for 3 years. I then went on to the marketing 'Evangelism' group where I managed relationships and support for third party developers of the Mac OS. I managed a public email address for developer issues and needs. I planned and executed large-scale developer events.

### **Education – Foothill College, Los Altos, CA** **1996 - 1998**

Graphics Design

### **Internship – Mediaweb, Inc. Mountain View, CA** **1995 - 2003**

Print and Web Design
